DETAILED ACTION

Response to Arguments

Applicant's arguments, filed 9/27/06, with respect to the rejection(s) of claim(s) 1, 5, 9 and 10 under 37 CFR 1.78(b) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of 35 U.S.C. 112, second paragraph.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4, 9 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, Applicant claims "writing color component values corresponding to even pixels in first entry locations in **SAID** dither cell". This dither cell is not previously defined and is not the same as the "staggered dither cell". The word "said" may be changed to "a" to overcome the rejection.

Regarding claim 9, Applicant claims "staggering lines of said color component values corresponding to odd pixels relative to lines of even pixel values" without defining what the quoted material refers too, this is indefinite. The words "to form a staggered dither cell" may be added to the end of "staggering lines of said color component values

corresponding to odd pixels relative to lines of even pixel values" to overcome the rejection.

Claims 2-4 and 10 are rejected because, under 35 U.S.C. 112, second paragraph, they depend upon rejected base claims.

Allowable Subject Matter

Claims 5-8 are allowed.
